

Useful Information to upgrade GST in Miracle Software

As we all know, GST is going to implement from 1st July, 2017. We also implemented in Miracle Software. Following are useful information to upgrade Miracle in “ GST Ready” version :

1. It is mandatory to upgrade old version (6.3 / 7.2) into new version 9.0.
 - If you have old version (6.3 / 7.2), then you must upgrade your GST Ready Miracle version in 9.0.
2. Your computer operating system must be updated (**Windows XP does not support**).
 - Your Computer operating System must be of Windows 7 or higher version. It can not support windows XP. Other requirements of hardware configurations are :
 - Processor : Core i3 (2GHz or Faster) or higher version.
 - Memory : Minimum 4GB RAM, 5GB Free Hard disk space
3. You must have High Speed internet connection.
 - To upload GST returns regularly
 - To update latest .exe file of Miracle software regularly
 - To get Online service from Miracle
 - To receive other important updates, internet connection is required.

You are requested to contact your dealers for information of Miracle upgradation and other notification.
